AMPA, FLA., December 31.—Balm weather contributed to bring out one of the best attendances of the meeting. Speculation was also of voluminous proportion and the racing sufficiently keen to suit the most exacting. Favorites were downed in most of the events, but as the winners in each instance were well supported by the public, the bookmakers did not find their bout overprofitable. The agreement between the management and the six operating bookmakers expires to-morrow. On Monday next all reputable bookmakers will be accorded privileges to post prices.

Jockey Haynes was informed to-day by the judges that he would not be allowed to accept any more mounts here. Jockey Mountain will also refrain from riding until he shows improvement in form. Summary:

GOLF TOURNAMENT  
AT HERMITAGE

The 1910 golf season at the Hermit-  
tage Golf Club will be opened to-day  
with an eighteen hole handicap medal  
score tournament.

A prize will be awarded the player  
turning in the lowest gross score and  
also to the player turning in the low-  
est net score. Should a player's score  
entitle him to both prizes, he will  
be awarded the gross score prize, and  
the net score prize will be given the  
player who turns in the next lowest  
net score.

United States Golf Association rules  
will govern strictly except where they  
are in conflict with local ground rules.  
Indications are that quite a large  
field will participate in this event,  
and players are requested to arrange  
so that they may commence play as  
soon as possible after 2 o'clock. How-  
ever, play may commence any time  
after 9 A. M. and the first eighteen  
holes played will be the score counted.

Tobacco Barn Destroyed by Fire.

(Special to The Times-Dispatch.)

EUPIKA MILLS, VA., December 31.—Yes-  
terday the large barn of B. D. Waddill, filled  
with tobacco, belonging to Richard and  
Claborne McGee, was destroyed by fire.  
It was with difficulty that Mr. Waddill's  
dwelling house and stables were saved.  
Firecrackers are supposed to have been the  
cause of the fire. There was no insurance.

EXCELLENT SPORT  
AT MONCIEF PARKGood Day for Long-Priced  
Horses—Big Crowd at  
Races.

JACKSONVILLE, FLA., December 31.

—Warmer weather prevailed here to-  
day and Moncief Park had one of the  
largest crowds of the week. The over-  
coats were not needed, and the big  
crowd saw an afternoon of excellent  
sport. It was a good day for the long-  
priced horses, no less than six of them  
finishing within the money. The tal-  
ent received a sudden jolt in the fourth  
race, which was a handicap, and the  
feature of the card, when Bat Mas-  
terson, an 8 to 1, shot beat out Guy  
Fisher and Booger Red, both of whom  
were heavily played. The horses at  
long prices, who finished second and  
third, were well played by the local  
bettors, who have been having good  
luck with the long shots during the  
past week. To-morrow's feature will  
be the new year handicap for a purse  
of \$2,000 over a distance of one mile.  
The yearlings will make their first  
appearance in a quarter-mile event,  
which race also promises to prove a

Stone &amp; Headliner.

Those who saw "A Stubborn Cinderella"

at the Academy of Music last

night had not ceased their laughter

when the bells tolled and whistles

blew, ushering in a new year. It was

just the kind of show to make any-

body glad he's living, and exactly the

remedy for the "blues" at an hour

when every person should be over-

joyful.

The chorus was not good-looking—

probably it has never been accused

of being such—but the girls could

dance, and the four men who balanced

the female voices could sing well

enough to produce a fairly pleasing

harmony. It is hard to tell exactly  
where the scenes are laid; but the  
author did not seem to take much  
care of places, endeavoring more to  
produce an effect that will make the  
show a "go."

He did this, and more, for with  
Harry Stone any production must be  
enjoyed. Stone is a youngster in the  
profession, from appearances, but he  
has enough originality to keep his  
playmates constantly on the alert for  
something new, and his "old ones"

had never been heard before in Rich-  
mond. Stone sings one song in the  
first act which is the real hit, and it  
is to be regretted that he is forced  
throughout the rest of the perform-  
ance to confine his efforts to mono-  
logue.

Aside from Stone, Grace Edmond is  
the only other real star. Miss Ed-  
mond's voice is no more charming than  
her personality, and both pleased. She  
is a pretty woman, a brunette, and is  
so changed by her many costumes that  
those in front are constantly declar-  
ing "she looks just like somebody I  
have known."

"A Stubborn Cinderella" made an  
unusual impression, and when Harry  
Stone returns to this city, as he prom-  
ises to do, he will find no vacant seats,  
not even in the last three rows.

SPENCER TRASK  
KILLED IN WRECK

(Continued From Page One—Column 2.)

York's leading citizens and one of the  
country's best known bankers. Born  
here in 1844, he entered the banking  
business immediately on his gradua-  
tion from Princeton. His financial ac-  
umen was quickly recognized, and he  
soon became a power in the banking  
world.

Mr. Trask was quick to recognize  
the genius of Thomas A. Edison, and  
identified himself with the Edison elec-  
tric enterprises. The banker was a  
director in many railroads and realty  
companies and was deeply interested  
in several educational and philan-  
thropic societies. Several years ago  
he bought and reorganized the New  
York Times. He was president of the  
National Arts Club and a member of  
numerous other prominent New York  
clubs.

Mr. Trask was married in 1874 to  
Miss Katrina Nichols.  
The Trask family has had many mis-  
fortunes in the past few years. His  
four children died within a single  
week, and Mrs. Trask has been an in-  
valid ever since last August. In an  
automobile accident in Boston, the  
glass wind shield was smashed, and  
Trask's eye so seriously injured that  
the surgeons had to remove it to save  
the sight of the other eye.

Trask lived most of his time at his  
Saratoga estate, coming once or twice  
a week to his business in New York.  
At Saratoga he had 200 acres includ-  
ing a lake and many beautiful drives.  
It was one of the show places of Sar-  
atoga, and visitors were welcomed in  
the grounds.

A second summer home of the dead  
multi-millionaire was his Twin Island  
Retreat at Lake George.

Three Killed in Wreck.  
TRENTON, MO., December 31.—Three  
persons were killed and forty-two in-  
jured to-day by the derailing and par-  
tial burning of a westbound Rock  
Island passenger train south of Tren-  
ton, which probably was caused by  
spreading rails. While the train was  
running at a high speed the locomotive  
and tender plunged over a three-  
foot embankment dragging two bag-  
gage cars, a mail car, a tourist car  
and a standard sleeping car with them.

While passengers in the wrecked  
cars were struggling to escape from  
the splintered cars burned rapidly, and  
the three slain passengers were partly  
burned. Scores of persons were res-  
cued as the flames were scorching their  
clothing or burning their flesh.

David Siegel, of Cleveland, Ohio, was  
held by the wreckage for an hour  
while the fire burned within a few  
feet of him, but was eventually res-

cued, although he may lose an arm.  
Heroic Rescues.

Heroic rescues were numerous. Men  
and women who escaped unharmed  
rushed into the burning wreckage to  
rescue the less fortunate passengers.

The ground was covered with snow  
and a raw wind was blowing. The  
men collected coats and protected the  
women, and women tore strips from  
their linen to make bandages for the  
wounded. Bonfires and the burning  
cars kept frostbites away until a re-  
lief train arrived.

The most seriously injured were  
taken to Trenton, while the other pas-  
sengers were taken to Kansas City,  
Mo. The greatest havoc was wrought  
in the chair car. It was in the debris  
that the bodies of the two women  
were found. Conductor David A. Clem-  
ens owes his life to the fact that he  
was in the baggage car when the  
wreck occurred. He was hurled  
through an opening to safety. He was  
severely injured.
